

## Features

- Cardioid pick-up pattern
- High quality speech reproduction
- Immune against mobile phones
- Wide frequency response
- Slim and unobtrusive
- Partially flexible gooseneck
- Illuminator ring
- 5-pin XLR connector

## Specifications

Technical Data	
Pick-up pattern	Cardioid
Frequency response	50 Hz to 20 kHz
Sensitivity (1kHz) (free field, no load)	8 mV/Pa ± 2,5 dB
Nominal impedance	1kΩ
Min. Terminating impedance	5kΩ
Equivalent noise level A-weighted (DIN IEC 651)	26 dB
CCIR-weighted (CCIR 468-3)	36 dB
Max. SPL (1kHz)	133 dB
Connection	5-pin XLR
Length	500 mm
Weight	±95g
Finish	Matt black, scratch resistant
Part Number	71.03.2250

## Description

The TGM2250 gooseneck electret condenser microphone with red illuminator ring is a high quality conference microphone for use with the delegate panel DML5500/XLR/A, chairman panel CML5500/XLR/A.
