GefenPRO®

8-Output DVI Plug-in Board
for the GefenPRO Modular Matrix

GEF-MOD-8DVI-O

Route to eight DVI displays through the GefenPRO Modular Matrixes

The 8-output DVI plug-in board is part of the GefenPRO Modular Matrix system. It can be installed in any one (or all) of the available output slots on any GefenPRO Modular Matrix, allowing DVI signals to be routed to multiple displays.

How It Works

Install the DVI Output module(s) into available GefenPRO Modular Matrix output slot(s), depending upon the application. Connect a DVI cable between each DVI display and each connector of the DVI Output Board. Power on all sources, displays, and any other associated equipment. Power on the matrix once all DVI Output modules and all input modules have been installed.

Note: Although DVI-I connectors are used, the GefenPRO DVI Input module only supports DVI-D.

Features*

• Plug-in Output module for GefenPRO Modular Matrix
• Supports Resolutions to 1080p Full HD and 1920 x 1200 (WUXGA)
• EDID management provides rapid integration between sources and displays
• Power Indicator LED

Specifications*

• Maximum Pixel Clock: 165 MHz
• Output Connectors: (8) DVI 29-pin, female, digital only
• Power Indicator: (1) LED, blue
• Dimensions (W x H x D): 15.75" x 1" x 10.5"
                                            (400mm x 26mm x 267mm)
• Shipping Weight: 2 lbs (0.9 kg)
