

Outstanding Visibility with Reliable Performance

XF Series

There is increasing demand for outdoor signage for delivering information and advertisement. With high-brightness and reliable performance, the open frame XF Series is able to achieve these goals effectively in any location.

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

High Brightness

With a great brightness of 3,000* cd/m², XF series clearly deliver contents and attract public attention, which is the ultimate display for outdoor visibility.

* 32XF1E: 1,500 cd/m²

Visible with Polarized Sunglasses

QWP (Quarter Wave Plate)* enables clear visibility even when the viewer is wearing polarized sunglasses.

* 32XF1E: Available in 2019.

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

No Blackening

Even under direct sunlight exposure, the open frame XF series remain free of blackening defects under 110°C and provide superior quality for outdoor usage.

Conventional

XF series

Auto Brightness Control

The screen brightness is automatically adjusted depending on the ambient light. The brightness is increased in light for better visibility, while it is decreased in darkness for efficient power management.

Auto Brightness

Outstanding Visibility with Reliable Performance

XF Series

Product Reliability

High Operating Temperature

Its high reliability under high operating temperatures reduces additional costs for air conditioning system.

Conformal Coating

The product can be often unavoidably exposed to dust and water during maintenance. Conformal coating on every major circuit board eliminates such troubles by protecting it against dust, iron powder, humidity, etc.

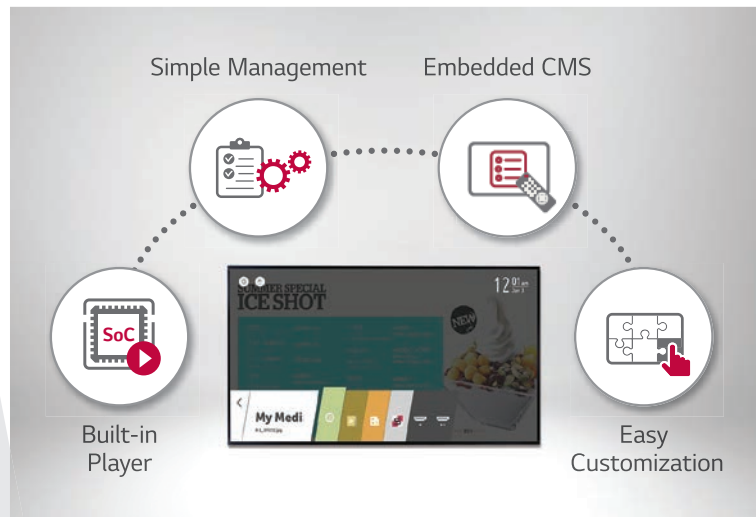

Outstanding Visibility with Reliable Performance

XF Series

High Performance

webOS Smart Platform

Quad Core SoC (System-on-Chip) can execute several tasks at the same time without a separate media player. In addition, webOS 3.0 platform enhances user convenience with intuitive UI and simple app development tools.

Smart Brightness Compensation

The built-in BLU sensor* constantly measures the brightness of the display and automatically compensates for reduced brightness during operation.

* Exclusive to the 75XF3ES model

Outstanding Visibility with Reliable Performance

XF Series

Easy Installation

Slim Design

Thanks to its thin depth, the XF series takes up less space and leads to ease of installation for various applications.

Optimized Design for Double-sided Display

For double-sided displays, the circuit board box at the back of the display is conveniently positioned* to conserve space with two back-to-back installations.

* Exclusive to the 75XF3ES model
