

Outstanding Visibility with Quiet Operation

XS series

Easily installed in store windows, LG's XS series of window facing digital signage captivates customers with its vivid image quality and quiet operation. The XS series helps businesses enhance their store's brand image while enriching the customers' shopping experience.

Outstanding Visibility with Quiet Operation

XS series

Outstanding Visibility

High Brightness

With a great brightness of 2,500 cd/m², XS series clearly delivers contents and attracts public attention, which is the ultimate display for outdoor visibility.

Visible with Polarized Sunglasses

QWP^(Quarter Wave Plate) enables clear visibility even when the viewer is wearing polarized sunglasses.

Outstanding Visibility with Quiet Operation

XS series

Quiet Operation

Fan-less Design

By eliminating the need for a cooling fan, we have made the XS series an ideal choice for the in-window environment. Its operating noise level is under 25dB, which is quieter than that of daily conversation.

XS Series
(Under 25dB)

Conversation
(50dB)

Typing
(78dB)

Space Efficiency

Slim Design

Thanks to its thin depth, the XS series takes up less space, which leads to space efficiency in an in-window environment.

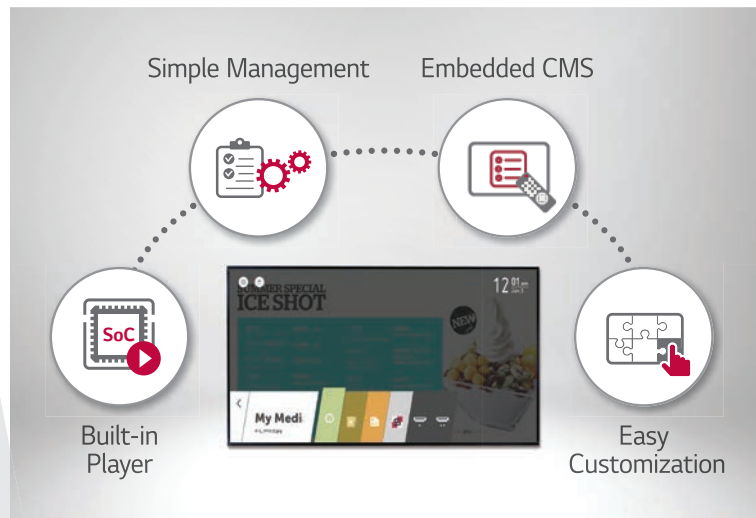

Outstanding Visibility with Quiet Operation

XS series

User Convenience

webOS Smart Platform

Quad Core SoC (System-on-Chip) can execute several tasks at the same time without a separate media player. In addition, webOS 3.0 platform enhances user convenience with intuitive UI and simple app development tools.

Smart Brightness Control

The screen brightness is automatically adjusted depending on the ambient light. The brightness is increased in light for better visibility, while it is decreased in darkness for efficient power management.
